# AQUAme

WATERPURIFIER

# PURE FRESH DRINKING WATER

## 01

### HIGH PRODUCTION STANDARD

For top quality water, only the most advanced technology and tested, high-quality components are used in the AquaMe.

## 02

### TWO-STAGE FILTER SYSTEM

A two-stage, yearly replaceable filter system reduces the suspended solids, harmful particles, excess odours, bacteria, and chlorine in the water. All while preserving valuable minerals and trace elements.

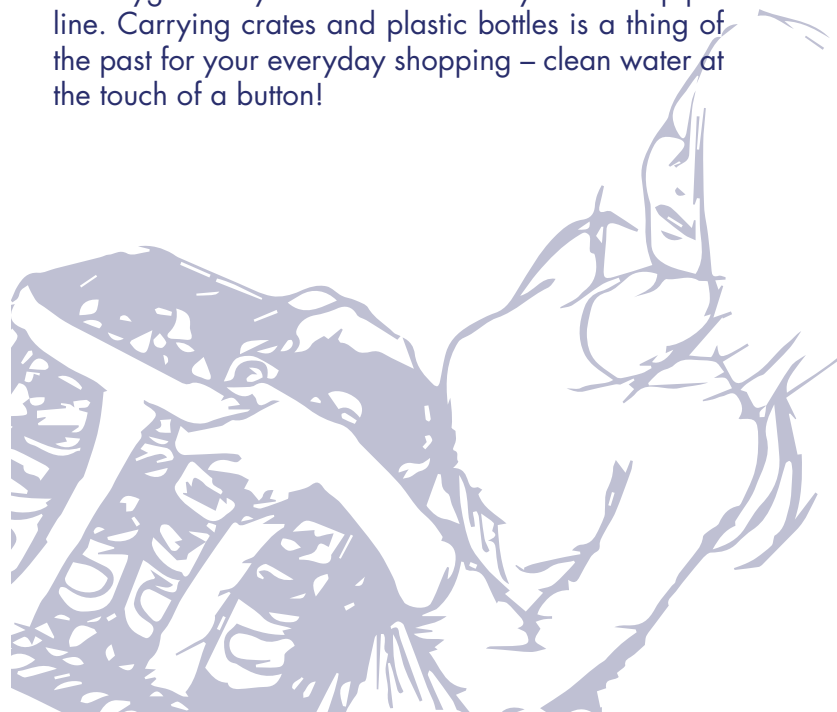

### WATER DISPENSER – WHY?

- ✓ **INDEPENDENCE**  
Unrestricted access to fresh water
- ✓ **WATER QUALITY**  
Purity and quality thanks to automated disinfection by means of the UV lamp
- ✓ **FUNCTION**  
Innovative and user-friendly
- ✓ **DESIGN**  
The slim and timeless design fits in anywhere

### TAP WATER DISPENSER

Our intelligent drinking water dispenser supplies you with hygienically clean water directly from the pipeline. Carrying crates and plastic bottles is a thing of the past for your everyday shopping – clean water at the touch of a button!

# AQUAme

## HIGH-QUALITY DRINKING WATER AT THE PUSH OF A BUTTON

Ideal for your daily water needs at home and in the office. Unlimited supply of tasty water thanks to our efficient water dispenser.

It is equipped with an ECO sensor, which automatically switches off the water supply using the light sensor, thereby saving energy. A user friendly touch display makes for very easy handling.

The AquaMe water dispenser has an antibacterial UV lamp for regular automatic disinfection and a system that protects against water leaks. The ease of use is rounded off with functions that regulate the quantity of water to be dispensed.

-  **DIMENSIONS**  
160(W) X 514(D) X 432(H) MM

### SUSTAINABLE AND ENVIRONMENTALLY-FRIENDLY

Not only does the annoyance of dragging of boxes become obsolete, with the AquaMe you are also making an extremely environmentally-friendly choice. You reduce the emission value and avoid plastic waste.

In recent years, the avoidably practical disposable plastic bottle has had an enormous environmental impact. The extraction and bottling of water also leads to ever higher emissions in our atmosphere. With the AquaMe tap water dispenser you always have fresh, clean, and delicious water without additional environmental impact or waste of resources.
